Whale shark tours are 'nature based' tours and rely on the appearance of whale sharks. While every effort is made to locate whale sharks there will naturally be days during the seasons where no whale sharks are sighted. This is by no means a common occurrence due to the high numbers of whale shark's in the area and the use of spotter planes to locate them.

We do however, strongly suggest that people booking whale shark tours allow themselves a little extra time - just in case! Ningaloo Blue appreciates the fact that many customers travel from places all over the world just to see these magnificent creatures and therefore, in the unlikely event that no Whale Sharks are sighted on tours, ONE repeat tour, free of charge is offered to all passengers on board.

Every effort will be made to arrange places for repeat customers on the day following their charter, however in some cases, due to prior bookings, this is not possible and customers will have to be prepared to wait until the next position.

This free tour is non transferable and non refundable and must be used in the season in which it is offered.

Swim with whale Sharks on the Ningaloo reef.

Ningaloo Blue is a team of dynamic professionals who are passionate about Whale Sharks & Ningaloo Reef.

We are fortunate enough to have the largest fish in the sea, the Whale Shark, grace us with their presence annually between April - July from Exmouth. From late May - July we are also fortunate enough to have Manta rays and Humpback Whales join us on the reef.

The Ningaloo Reef is the Only place in Australia where you can swim with the Whale Sharks. The Whale Sharks which we encounter are usually between 4 - 12 meters long and are completely harmless.

Swimming beside these creatures is a totally awesome experience.

At Ningaloo Blue we have a specifically designed vessel for Whale Shark Tours which means our tours are available to the young and the young at heart.

Our team of passionate professionals will take you out on the Ningaloo Reef for a tour which will be the...
